

I'm upset that my radio station may have its signal replaced by LPFM. I look forward to the family-friendly programming offered by K-Love and that is just one of the reasons I support them financially. They provide me as a resident of my local community an alternative to the commercialized programming offered by other stations. I also have the "clean" messages in which I am not afraid to have children listening to. I'm sure the other stations follow FCC guidelines, none the less what you deem as acceptable is not always in agreement with me or my family.

If K-Love is replaced by some LPFM station, many in the community will not have access to the family-friendly programming we enjoy now. There are some that use K-Love as their only means of spiritual growth. By taking it away you are infringing on their rights of religious freedom. The State (FCC) not separating from the Church. Not that you are trying to do this, but you will be.

K-Love provides a valuable service and is in the public's interest. It keeps airing. They fill an ever growing gap in the Christian - Secular music world. They bring hope and choice to many with nowhere else to turn.

I sincerely ask you to keep LPFM stations from taking over the airwaves and allow people the choice they deserve. If America did not want K-Love, they would not have the financial support to keep on the air. Thank you for your time. v/r Lionel Stevens
